

LAND CRUISER

UNRIVALLED STRENGTH. LEGENDARY CHARACTER

With an off-road heritage spanning more than 65 years, the Land Cruiser remains unique in its ability to combine outstanding quality, durability and reliability with unrivalled off-road performance and ever greater levels of luxury, prestige, and on-road comfort.

Model shown on this page and on front cover is Executive.

BORN AN ICON. FOREVER UNSTOPPABLE

Ever since the first generation climbed Mount Fuji in 1951, the Land Cruiser has been unstoppable. It continues to excite customers all over the world with its capability and its determination to get you anywhere and safely back. Today, the new Land Cruiser is just as relentless – with more advanced on- and off-road technologies, more safety features and more powerful performance to tackle any terrain.

1951

BJ series is born – first vehicle to be driven as far as 2,500 metres up Mount Fuji.

1966

The Land Cruiser Station Wagon series – offers a more sophisticated version of the 4x4.

1985

The first Light Duty series – combines uncompromised off-road strengths and comfort.

1996

90 series – now with a strong chassis, independent front suspension and a higher performance engine.

2002

120 series – first full model change in 6 years to enhance drivability both on- and off-road.

2009

150 series is born – combines outstanding durability with unrivalled off-road performance.

2017

150 series – equipped with more advanced on- and off-road technologies as well as safety features.

Model shown is Executive.

STRENGTH AND PURPOSE IN EVERY LINE

The new Land Cruiser further enhances its reputation with more modern and robust exterior styling. Every line serves a clear purpose: starting with the bonnet which has been shaped to improve downward visibility at the centre; the headlamps and grille cooling openings positioned higher to maximise both protection and wading depth; while high-gloss painted 19" alloy wheels create a more dynamic profile. The rear now includes a redesigned lamp cluster with an LED stop light.

COMFORT THROUGH CRAFTSMANSHIP

Model shown is Executive.

The Land Cruiser's unique mix of functionality, craftsmanship and attention to detail ensures the most rewarding journey on any route.

On-board comfort has been enhanced through the adoption of front seat ventilation, a rear passenger adjustable ventilation system, three-zone automatic air conditioning, an electrically heated windshield with heated washer nozzles, and reverse-tilting door mirrors.

1. CENTRE CONSOLE

The centre console features the large, Toyota Touch® 2 with Go multimedia system, Smartphone Integration for Apple CarPlay™ and Android Auto™ and more ergonomic, functionally grouped switches that are separated into specific zones. The drivetrain-, driving- and comfort-related switchgear are easy to use in all on- and off-road conditions.

2. REAR PASSENGER AIR CONDITIONING CONTROL PANEL

The rear passengers can adjust the temperature to their individual needs to experience optimal comfort at all times.

ON-ROAD OR
OFF-ROAD.
BE IN
CONTROL

Model shown is Executive.

The new Land Cruiser's high levels of on-board technology hallmark it as a premium 4x4. The top of the new centre console tower has been lowered for a more sleek appearance and improved front visibility when driving off-road. It incorporates a new, 8" multimedia screen which displays multiple images from cameras positioned around the vehicle. Off-road controls including a Multi-Terrain Monitor (MTM) with Under-Vehicle Terrain View and Multi-Terrain Select (MTS) in combination with Crawl Control help you tame the wildest territory.

1.

1. DRIVE MODE SELECT SYSTEM

Once you select the mode to suit your driving style and/or the conditions, the system will automatically control engine, transmission, Electric Power Steering (EPS), Variable Flow Control (VFC), Adaptive Variable Suspension (AVS) and air conditioning to maximise either the vehicle's environmental efficiency or its dynamic abilities.

2. TFT SCREEN WITH TYRE PRESSURE MONITORING SYSTEM (TPMS)

The 4.2" TFT multi-information screen in the combi-metre provides drivers with comprehensive vehicle and infotainment data including safety features such as TPMS. TPMS allows you to keep a check on the pressure of each individual tyre (including a full size spare tyre) via the display. Should the pressure be too low, a warning symbol lights up.

2.

AS VERSATILE AS YOUR AMBITION

Whether you're exploring new territory, or negotiating the urban jungle – the Land Cruiser has the spacious cabin and the versatility to match your needs. Choose between a 2-, 5- or 7-seater, for a vehicle that adapts to changing conditions and individual wishes. Loading is easy too, thanks to features like the rear glass hatch window that can be operated with one hand.

2 people travelling
2nd row seating folded down
and 3rd row stowed.

Model shown is Executive.

IN CONTROL, WHATEVER LIES AHEAD

Towing your equipment, avoiding potholes, battling rain, snow and ice – no other SUV can offer the new Land Cruiser's unique combination of on-road dynamics and off-road performance. It is equipped with a Drive Mode Select System, an electronically modulated Kinetic Dynamic Suspension System (KDSS), which optimises the effect of the front and rear stabilisers for enhanced on-road performance.

KINETIC DYNAMIC SUSPENSION SYSTEM (KDSS) ON-ROAD*

KDSS is an electronically modulated hydraulic suspension system. On-road, highly responsive suspension with conventional anti-roll bars provides unrivalled steering agility and ride comfort by optimising the effect of the front and rear stabilisers.

TRAILER SWAY CONTROL (TSC)

TSC suppresses any trailer sway caused by wind, bumpy roads or steering etc. whenever you are towing. With sensors detecting yaw, acceleration and steering, TSC uses deceleration control and yaw moment to limit sway. The slip indicator bleeps when TSC is activated, and to warn drivers behind, the stop lamps are illuminated.

TORSEN REAR LIMITED SLIP DIFFERENTIAL (LSD) LOCK

The new Torsen Rear LSD lock helps improve stability and traction on rough roads and slippery surfaces. When cornering, it limits the torque difference between the left and right wheels generated by engine braking, thereby achieving greater vehicle stability.

Model shown is Executive.

READY TO CONQUER THE TOUGHEST TERRAIN

Crawling through a river, climbing hills, descending a rocky track – the Land Cruiser’s ability to overcome the roughest terrain and bring you back safely is legendary. The Multi-Terrain Monitor (MTM) with Under-Vehicle Terrain View gives you an instant overview of your surroundings, including Panoramic View. There is also a choice of three rear differential variants including the new Torsen Rear Limited Slip Differential (LSD) lock for enhanced stability and grip. The Multi-Terrain Select system (MTS) in combination with Crawl Control automatically regulates vehicle settings to suit the conditions for maximum control.

MULTI-TERRAIN MONITOR (MTM) WITH UNDER-VEHICLE TERRAIN VIEW*

MTM is designed to give you an instant overview of your surroundings, helping you stay on your intended course and avoid potential danger. Under-Vehicle Terrain View captures an image of the area in front of the vehicle and combines it with the current tyre position, creating a realistic view of what lies underneath.

PANORAMIC VIEW MONITOR*

To help you spot obstacles and ease off-road driving, the Panoramic View Monitor and the Steering Angle Display create a near 360° 3D view of the vehicle’s surroundings.

MULTI-TERRAIN SELECT (MTS) IN COMBINATION WITH CRAWL CONTROL*

Tackle any scenario with a choice of five terrain modes. MTS automatically regulates the amount of wheel spin to suit the off-road conditions and even works in conjunction with Crawl Control.

REAR DIFFERENTIAL LOCK

The touch of a button allows you to temporarily lock a differential forcing both wheels to spin at the same speed, helping the wheel regain full control.

ACTIVE TRACTION CONTROL (A-TRC)*

A-TRC helps to overcome wheel spin and stabilise the vehicle when accelerating on slippery roads and in muddy conditions.

Model shown is Executive.

Model shown is Executive.

UNRIVALLED QUALITY

BODY ON FRAME*

Land Cruiser's robust body on frame construction uses high tensile sheet steel for a lightweight design, which maintains maximum strength and rigidity. It also isolates the cabin from suspension impacts for greater comfort even in rough road conditions.

KINETIC DYNAMIC SUSPENSION SYSTEM (KDSS) OFF-ROAD*

KDSS allows the wheels to remain firmly on the ground and provide greater traction and stability on the roughest terrain.

HILL-START ASSIST CONTROL (HAC)* / DOWNHILL ASSIST CONTROL (DAC)*

HAC helps to ensure a smooth start on steep inclines and prevents the vehicle from rolling back. When descending off-road, DAC applies individual brakes to keep the vehicle stable.

ADAPTIVE VARIABLE SUSPENSION (AVS)*

AVS continuously adapts shock absorber damping at the front and rear in response to the road conditions and automatically selects the most appropriate ride mode: Comfort, Normal or Sport.

The Land Cruiser epitomises strength built on its unrivalled commitment to quality, durability and reliability. Key to the Land Cruiser's peerless off-road capability is its combination of a highly durable, deformation-resistant, unique body on frame construction with the remarkable level of guidance and technical support it offers drivers. From Japanese mountaintop and European forests to central Asian and Russian territories, the Land Cruiser has literally been tested all over the world. It always returns unfazed, ready for the next challenge.

OFF-ROAD OR ON-ROAD, ALWAYS PROTECTED

AUTOMATIC HIGH BEAM

Toyota Safety Sense's Automatic High Beam is designed to optimise visibility during night driving for all road users. A camera detects the lights of oncoming vehicles and leading traffic whilst also monitoring the brightness of streetlights. It switches automatically between high and low beam for safer night-time driving.

INTELLIGENT ADAPTIVE CRUISE CONTROL

This technology includes the features of Adaptive Cruise Control combined with Road Sign Assist, automatically keeping the car at a pre-selected speed and warning the driver if the speed limit changes, and allowing the driver to easily adapt the cruising speed accordingly.

LANE DEPARTURE ALERT

Using a camera to detect the lane markings in the road ahead, Toyota Safety Sense's Lane Departure Alert will give the driver audible and visual warnings if the vehicle starts to deviate from its lane without the turn indicator being applied – the driver can then take corrective action.

Model shown is Executive.

The Land Cruiser is fitted with Toyota Safety Sense*, a set of active safety technologies designed to help prevent or mitigate collisions across a wide range of traffic situations. It includes a Pre-Collision System (PCS)[§] with pedestrian (day or night) and cyclist (day only) detection, Intelligent Adaptive Cruise Control (ACC), Lane Departure Alert (LDA), Automatic High Beam (AHB) and Road Sign Assist (RSA).

Further safety technologies include a Blind Spot Monitor (BSM) with Rear Cross Traffic Alert (RCTA).

ROAD SIGN ASSIST

Toyota Safety Sense's Road Sign Assist monitors the road signs ahead, displaying useful information such as the current speed limit or overtaking restrictions in clear view on the new colour TFT cockpit display. The system also provides a visual and acoustic warning if you are not following the road sign indication.

PRE-COLLISION SYSTEM

The Pre-Collision System is using alerts, brake assist or automatic braking to reduce the likelihood and severity of impact, and can detect cars, pedestrians (day or night) and cyclists (day only).

* Available on Executive grade. [§] Technical name: Pre-Crash Safety System.

The new unrivalled Land Cruiser is powered by a 2.8 l D-4D turbodiesel combined with a choice of manual or automatic transmission.

THE
SOURCE OF
STRENGTH

Model shown is Executive.

GRADE ACTIVE

Standard equipment

- 17" silver alloy wheels
- Smart Entry System - a system of automatic unlocking and locking of vehicle
- Radio CD MP3, 6 speakers + RDS
- LED daytime running lights
- A-TRC (Active Traction Control) system for active traction control
- HAC (Hill Assist Control) system assistance when moving uphill (*only for A/T

transmissions)

- DAC (Downhill Assist Control) downhill assistance system (*only for A/T transmissions)
- Tire pressure monitoring system (TPWS)

GRADE LIMITED

Standard equipment (additionally to Active grade):

- Leather steering wheel
- Leather gearbox
- Leather parking brake
- Rear view camera
- Automatic air conditioning
- Toyota Touch® 2 color multimedia system (8"multimedia screen)
- 9 speakers & DAB
- Cruise control
- Rear parking sensors

GRADE EXECUTIVE

Standard equipment (additionally to Limited grade):

- 19" alloy wheels
- Extra tinted rear windows
- Automatic air conditioning with 3 zones
- ToyotaTouch® 2 with GO navigation system
- JBL sound system
- 14 speakers

- Bi-LED headlights
- Adaptive cruise control
- Traffic lane monitoring system with automatic routing
- Traffic sign recognition system
- Driving mode selection system
- Leather seats and interior

GRADE PREMIUM

Standard equipment (additionally to Executive grade):

- Electrically adjustable opening on the roof
- Memory for adjusting the driver's seat, steering wheel and exterior mirrors
- Blind Spot Monitor
- Automatic transmission
- Vehicle tilt monitoring system
- Crawl Control at low speeds
- Multi-Terrain Select (MTS) off-road driving system with a choice of 5 different types of surfaces
- Assistance system when turning on inaccessible terrains
- Kinetic Dynamic Suspension System (KDSS)

ACCESSORIES

Genuine Toyota accessories add special touches of individuality to your Land Cruiser 150. Wherever you go, through town or country, options for style, practicality and innovation offer extra flexibility to tailor your car for life and the way you choose to live.

The following accessories are optional for the packs:

TRUNK DIVIDER – FOR 5 SEATER

Combines with the full height trunk guard to divide the trunk space for different types of equipment, luggage or two dogs.

DOG GUARD HALF HEIGHT – FOR 5 SEATER

Shaped to prevent a dog jumping into the passenger space. Made especially for cars with trunk rails.

TRUNK GUARD, FULL HEIGHT

A floor to ceiling guard for keeping your equipment, luggage or a dog out of the passenger area.

RUBBER FLOOR MATS

Tough protection for your car's cabin carpets. Safety fixings hold the driver's mat firmly in place.

TRUNK LINER* (Available on both packs)

Strong black plastic with a non-slip surface and raised edges to protect the trunk carpet. Fits around trunk rails.

HORIZONTAL DETACHABLE TOWING HITCH (Available on both packs)

Lets you make full use of your car's powerful towing capacity. The hook can be removed when not used.

FLEET PACK

Business, pleasure and practicality go hand-in-hand with the Land Cruiser 150. Fleet pack accessories make even more of the experience.

* Not applicable for all versions. Please contact your local Toyota retailer for details.

TEXTILE FLOOR MATS

Stylish anthracite coloured mats for dependable protection of your car's carpets. Safety fixings hold the driver's mat in place.

ROOF RACK

Easy to fit lockable bars that combine to form a roof-top base for safely carrying extra luggage or equipment.

THULE PACIFIC 700 SKI BOX

Exactly the right length, shape and capacity for carrying winter sports gear and accessories. Silver grey finish.

Visit www.toyota-europe.com or pick up a brochure at your local Toyota retailer for details of the full range of accessories.

TRANSPORT PACK

Transport pack accessories add extra dimensions of practicality and carrying to the Land Cruiser's legendary go anywhere, do anything capability.

The fuel consumption and CO₂ values are measured in a controlled environment on a representative production model, in accordance with the requirements of the new WLTP European Regulation EC 2017/1151 and its applicable amendments. For each individual vehicle configuration, the final fuel consumption and CO₂ values may be calculated based on the ordered optional equipment. The fuel consumption and CO₂ values of your vehicle may vary from those measured or calculated values, as driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, load, number of passengers, etc.) have an influence on a car's fuel consumption and CO₂ emissions. For more information regarding the new WLTP test method, please visit: <https://www.toyota-europe.com/world-of-toyota/feel/environment/worldwide-harmonized-light>

GLOSSARY

Discover more about Land Cruiser technology.

	<p>Panoramic View Monitor Panoramic View Monitor helps to make parking and manoeuvring safer and easier. It combines images from four cameras to create a near 360° 3D view of the surroundings. Displayed clearly on the Toyota Touch® 2 multimedia system screen, the driver can choose from two viewing modes: Moving View and See-through View to check for any hidden obstacles or dangers.</p>		<p>All Wheel Drive (AWD) In normal road conditions, drive is through the front wheels, but on loose or slippery surfaces the system automatically and continuously distributes the torque between front and rear wheels. This optimises traction and driving stability and also maximises fuel economy.</p>		<p>Hill-start Assist Control (HAC) HAC helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back. It is activated by pushing the brake pedal harder after stopping as long as the transmission shift lever is in any forward gear position.</p>		<p>Crawl Control Crawl Control maintains constant and stable low-speed off-road progress. The driver doesn't have to worry about controlling the throttle and brake, and can instead concentrate on steering.</p>
	<p>Multi-Terrain Select (MTS) Tackle any situation with a choice of four terrain modes – 'Rock', 'Mogul', 'Loose rock' or 'Mud & sand'. The vehicle's throttle, braking and traction control systems are automatically modified to suit the off-road conditions, providing maximum traction and control.</p>		<p>Body on frame High tensile sheet metal is used to maintain a lightweight design and ensure strength and rigidity. Sound-absorbing and noise-cancelling materials contribute to a peaceful drive.</p>		<p>Downhill Assist Control (DAC) When descending off-road, DAC applies individual brakes to keep the vehicle stable and maintain its speed between 5 and 7 km/h. DAC works in forward or reverse, and when activated it requires no pedal input from the driver.</p>		<p>Stop & Start System The Stop & Start System automatically stops the engine when your vehicle is stationary and in neutral – at a red light, for example, or in a similar situation. This improves fuel efficiency and reduces exhaust gas emissions. The engine is immediately restarted when you press the clutch.</p>
	<p>Multi-Terrain Monitor (MTM) MTM allows you to see the road around you, helping you stay on your intended course and avoid potential danger. The screen displays a choice of six live images from four exterior cameras showing your surroundings either side of the car, behind and in front of you, as well as underneath your vehicle. By simply pressing the multi-function switch on the steering wheel, you'll have an instant understanding of your surroundings.</p>		<p>Kinetic Dynamic Suspension System (KDSS) KDSS is an electronically modulated hydraulic suspension system. On-road, highly responsive suspension with conventional anti-roll bars provides unrivalled steering agility and ride comfort. Drive off-road and the wheels remain firmly on the ground and provide greater traction and stability on the roughest terrain.</p>		<p>Active Traction Control (A-TRC) Designed for on- and off-road, A-TRC helps to keep you moving in the most adverse conditions. This intelligent traction control applies brake force to one wheel that may be slipping, while distributing power evenly between the three that are not.</p>		<p>Toyota Safety Sense Toyota Safety Sense adds advanced active safety systems for an even safer and more relaxed drive. Five active technologies – Pre-Collision System* with pedestrian (day or night) and cyclist (daytime) detection, Lane Departure Alert, Automatic High Beam, Road Sign Assist and Intelligent Adaptive Cruise Control are at the heart of Toyota Safety Sense.</p> <p>* Technical name: Pre-Crash Safety System.</p>
					<p>Adaptive Variable Suspension (AVS) AVS dampens all four shock absorbers independently. This provides you with outstanding ride comfort, handling and stability. What's more, you can choose from Comfort, Normal and Sport modes to suit your preferences and road conditions.</p>		

TOYOTA 2050 ENVIRONMENTAL CHALLENGE & ENVIRONMENTAL LIFECYCLE POLICY

At Toyota, we want to go beyond zero environmental impact and leave the world in a better place than we found it. To make that happen, we have set ourselves six challenges to complete by 2050. Each one presents its own difficulties, but we are committed to generating a positive and sustainable impact on society and the natural world as a whole.

CHALLENGE 1

NEW VEHICLE – ZERO CO₂ EMISSIONS

By 2050, we want to reduce the CO₂ emissions from our vehicles by 90% compared to our 2010 levels. To achieve this, we will promote the development of new vehicles with low or zero carbon emissions, and do everything we can to increase the uptake of these vehicles.

CHALLENGE 4

MINIMISING AND OPTIMISING WATER USAGE

To minimise water usage, we have started to collect rainwater at our manufacturing plants. We have also developed purification methods so that the water we do use can either be used again or returned safely into the local supply.

* Toyota's LCA methodology, which is applied to our passenger vehicles, was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

CHALLENGE 2

LIFE CYCLE – ZERO CO₂ EMISSIONS

We are working to create more environmentally friendly designs – and then analysing and refining them to ensure the lowest possible environmental impact throughout the vehicle's entire life cycle*.

CHALLENGE 5

ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

We've been working on the challenge of resource recycling for 40 years, with the result that 95% of every Toyota Land Cruiser is now reusable and recoverable. In addition, we offer new and innovative ways of returning your vehicle when it eventually reaches 'the end of the road'.

CHALLENGE 3

PLANT ZERO – CO₂ EMISSIONS

To reduce carbon emissions at our manufacturing plants, we are focusing on improving the technologies we use and switching to alternative power sources. We are committed to making our facilities more energy-efficient and adopting renewable energy sources such as solar and wind, as well as low-carbon power such as hydrogen energy.

CHALLENGE 6

ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

To preserve and enhance our co-existence with the natural world, we are organising reforestation and tree planting, green urban schemes and other environmental initiatives, both at our own sites and in the wider world. Our aim is to establish a society where people and nature coexist in harmony.

YOUR COMPLETE PEACE OF MIND WITH TOYOTA

QUALITY SERVICE

Your Toyota will need a Health & Safety check at least once every 2 years/30,000 km (whichever comes sooner). An intermediate check is necessary every year or 15,000 km.

ADDED SECURITY

Toyota's comprehensive security system withstands the insurance industry's rigorous 5-minute attack test.

LOW MAINTENANCE COSTS

All Toyota vehicles are designed and engineered to minimise your maintenance costs.

GENUINE ACCESSORIES

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. All accessories are covered by a 3-year warranty when purchased together with the vehicle*.

GENUINE PARTS

Providing the reassurance of Toyota quality, only genuine and approved components are used on your vehicle.

TOYOTA EUROCARE

Enjoy peace of mind driving with complimentary Toyota Eurocare roadside assistance in 40 European countries for 3 years[§].

COMPREHENSIVE WARRANTY

Every new Toyota comes with a 3-year/100,000 km vehicle warranty*, which covers any defect caused by a manufacturing fault[§].

For more information on peace of mind visit: www.toyota-europe.com/service-and-accessories

* Check with your retailer for specific warranty details. [§] Transport to the nearest authorised Toyota repairer will also be covered. In addition 3-year/unlimited mileage paint warranty protects against defects and surface rust caused by a manufacturing fault. Every new Toyota is covered by a 12-year anti-corrosion warranty (not valid for commercial vehicles) against perforation of body panels caused by a manufacturing fault in materials or workmanship. [§] Belgium 5 years/Portugal and Denmark 1 year.

UNRIVALLED IN EVERY TERRITORY

Wherever you want to go, Land Cruiser will take you there. And bring you safely back.

Model shown is Executive.

GO. ANYWHERE.
